We are a New Zealand owned and operated company that has been in business since 1999. We have offices in Auckland and Boston, US.

Our organization has grown through working with business partners internationally. We have joined with partners such as Open Text, Interwoven, and General Networks to deliver solutions to large enterprises.

DPA has over 70 major customers worldwide - some of which are highlighted on the "Customers" section above.

We specialize in Document and Process Automation enabling business enterprises to deliver high value content-based applications. Our genesis was as a provider of complex document automation and delivery solutions for the legal market, and our Perfectus software suite has developed a reputation as a key component technology in content enabled applications.

We also use our core technology to deliver document-centric solution kits for Microsoft's SharePoint platform. Contract and Vendor Performance Management systems form part of these offerings.

If you would like to know more, please contact us using the details provided on the right.

The company has recently changed its name to DPA. Previously it has operated under the

name of Perfectus and continues to do business under this name.
