Perfectus has created a very close integration with Hummingbird Enterprise 2004/2005 (eDOCS DM5 and eDOCS DM6). By fully integrating into our design tool, the IP Manager, authors are able to leverage all the power of a full document management system.

Perfectus has a tight integration to the eDOCS WebTop Contracts Management (CM) solution, but also has the ability to integrate directly to DM5 or DM6 without requiring WebTop or Contracts Management.
